Name of the Technical Hub: JIIT Programming Hub

Department: Computer Science & Engineering and Information Technology, JIIT Noida

Faculty Coordinator: Dr. Manish Kumar Thakur, Associate Professor, Dept. of CSE/IT

JIIT Programming Hub is one of the technical hubs/clubs of Department of Computer Science & Engineering and Information Technology, Noida. The prime objective of the JIIT Programming Hub is to develop the healthy, interactive and competitive programming environment for the JIIT Students.

Following are the two verticals under the umbrella of JIIT Programming Hub:

1. KNUTH Programming Hub
2. Open Source Developers Community

(1) KNUTH Programming Hub

https://knuth-programming-hub.github.io/
https://www.facebook.com/groups/jiit.knuth
https://t.me/joinchat/LGo0IhZoPRjRjBJHJPf3OA

Introduction: KNUTH Programming Hub is one of the verticals of the JIIT Programming Hub (a technical hub of Dept. of CSE/IT). With the vision of enhancing the programming skills (C/C++/Java), logical skills (Data Structures/Algorithm), and problem solving skills (using the online judge platforms of HackerRank, CodeChef, HackerEarth, Codeforces, SPOJ, *etc.*) of the students, the hub was established in 2011. Since then, throughout the year, the programming hub is actively conducting the workshops, tutorials, hands-on, meet-ups, online weekly programming contests, onsite team based programming competitions, and onsite individual programming competitions to enhance the skills of the students. The hub also conducts special workshops for ICPC (formerly ACM ICPC) aspirants.

Objective and Focus of KNUTH Programming Hub: Strengthen the Logical and Problem Solving Skills (Data Structures and Algorithms) using different programming languages (C/C++/JAVA). This skill is one of the essential skills to perform well in the On-Campus / Off-Campus placement drives of big companies, like Google, Microsoft, Amazon, Adobe, *etc*. Besides developing the problem solving skills for placement, the focus is also to perform well in prestigious International programming contests, like ACM ICPC.

Regular Events conducted by KNUTH Programming Hub throughout the year:

(i) Workshops/Meet-ups/Hands-on:
   a. **Code Class Noob:** Often at the beginning of the academic year, the KNUTH Programming Hub conducts the weekly workshop for the students having

little expertise of programming skills, logical skills, and problem solving skill. The workshop is often conducted by the student coordinators of the hub and sometimes faculty coordinator of the hub. Usually, around 50 students (mostly fresher's) are used to participate in this weekly workshop.

b. **Code Class Pro:** Often at the beginning of the academic year, the KNUTH Programming Hub conducts the workshop for the students having some/significant expertise of programming skills, logical skills, and problem solving skill. The workshop is often conducted by the student coordinators of the hub and sometimes faculty coordinator of the hub. Usually, around 40 to 60 students (mostly from second year) are used to participate in this weekly workshop.

c. **Meet-ups:** It is one of the regular activities of the Hub where students interact and discuss their problems. Here, participants get the opportunity to interact with senior year students and JIIT Alumni and get their problems/queries resolved along-with the further directions to enhance their skills.

d. **Hands-on:** This activity is usually conducted with the fresher to get familiar with the functionality of the online judges (HackerRank, CodeChef, HackerEarth, etc.) so that they can start solving the problems on online judges.

e. **Special Workshops for ACM ICPC:** In the month of September/October, the hub conducts the workshop/interactive sessions/tutorials with the students willing to participate in ACM ICPC which is conducted in different rounds. For last five years, more than 100 JIIT students participate in the online round of the ACM ICPC.

(ii) Programming Contest:

a. **Team based Programming Contest:** Every year, the programming hub conducts three such contests (team of maximum 3 students) of around 4 Hrs. durations. These contests are as follows:

Execute (conducted twice in a year, one in Odd Semester and one in Even semester). Execute in Odd semester is conducted in two rounds: Qualification round (around 600 students usually participate) and Final round (around 200 qualified students participate). Execute in Even semester is conducted in one round where around 700 students participate.

Knuth Cup (conducted in Even Semester). Like Execute in Odd semester, Knuth Cup in Even semester is conducted in two rounds: Qualification round (around 500 students usually participate) and Final round (around 100 qualified students participate).

b. **Individual Programming Contest**: Every year, the programming hub conducts one such contest of around 4 Hrs. durations. Name of this contest is as follows:

Encode (conducted in Odd semester). It is conducted in two rounds: Qualification round (around 400 individual students usually participate) and Final round (around 100 qualified individual students participate).

c. **Regular Contest of Online Judge:** Besides above three contest (which are organised by the programming hub), the coordination team of the programming hub assist in understanding the problems and deciding the solution approach of various weekly/monthly programming contest hosted by different online judge, like (HackerRank, CodeChef, HackerEarth, Codeforces, etc.)

2. Open Source Developers Community (OSDC)

https://www.facebook.com/groups/153631204680678
https://twitter.com/osdcjiit
https://www.instagram.com/osdcjiit/

Introduction: Open Source Developers Community (OSDC) is one of the verticals of the JIIT Programming Hub (a technical hub of Dept. of CSE/IT). With the vision of enhancing the Project Development skills (especially in contributing in Open Source Development) of the students, OSDC conducts regular workshops, meet-ups, and Hackathon. Students are encouraged to utilise the repository of GitHub to contribute in Open Source and develop good projects to compete for GSoC (Google Summer of Code). With the efforts of OSDC, since 2016, around 20 JIIT student projects were selected for GSoC. Benefited with the regular workshops, meet-ups, and Hackathons conducted by OSDC, the JIIT students achieved good ranks in various regional/national/international Hackathon, like, Smart India Hackathon (SIH), American Express Hackathon, etc.

Objective and Focus of OSDC: Strengthen the Project Development Skills (Front End Development, Back End Development, Open Source Development, etc.). It is the essential skill for the overall development of a student as programmer and perform well in product oriented companies and start-up. Besides developing the skills for placement, the focus is also to compete for GSoC, and Hackathon of regional/national/international repute, like, Smart India Hackathon (SIH)

Regular Events conducted by OSDC throughout the year:

(i) Workshops/Meet-ups/Hands-on:

a. Git Workshop: It is one of the elementary workshops usually conducted for fresher where participants get the exposure of different functionalities of Git and utilization of GitHub repository to develop good projects to contribute in GitHub repository.

3

b. Linux Workshop: It is one of the elementary workshops usually conducted for fresher where participants get the exposure of the Linux fundamentals.

c. Weekly Workshop: Almost every Tuesday, the OSDC conducts the workshop on different technologies for the development of projects and exploration of the open source contributors. These technologies include, Java Script, Python, *etc*.

d. Weekly Meet-ups: Almost every Tuesday (after the weekly workshop), the OSDC conducts the Meet-up, where participants get the opportunity to interact with the senior year students and JIIT Alumni and get their queries resolved along-with the further directions to enhance their project development skills to compete for GSoC, and Hackathon of regional/national/international repute, like, Smart India Hackathon (SIH).

e. Special Workshop for GSoC: In Even semester, the OSDC conducts the special workshops for GSoC aspirants. Here the team of OSDC coordinators, Ex-coordinators (Senior Year Students) and JIIT Alumni interact with the GSoC aspirants, assist them in selecting/developing good problem/idea/real life applications for developing the project to be submitted at GSoC along with its solution approach.

(ii) Hackathon: Every year the OSDC conducts one to two Hackathon (s), usually, one in each semester (ODD and Even). Duration of theses Hackathon (s) is in between 7 Hrs. and 48 Hrs. Around 70 to 80 students participate in each Hackathon.

(5) Brief description of the Major Events/Contests Conducted in 2016

(a) KNUTH Cup 2016: Knuth Cup is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest where participants in group of maximum 3 students attempt to solve the given programming based logical problems. This event is conducted during annual techno-cultural fest of JIIT, *i.e.* "Impressions". In 2016, this event was conducted in two rounds, Qualification Round and Final Round. Qualification round was conducted on 31st Jan 2016 whereas shortlisted teams participated in Final Round which was conducted on 6th Feb 2016.

KNUTH Cup 2016 (Qualification Round): In total, 170 teams across the globe participated in the qualification round of KNUTH Cup 2016. Out of 170, count of teams from JIIT was 155 whereas total 15 external teams (Non-JIIT Teams) participated in the qualification round. The contest was 3 Hrs. long and conducted online at the online judge platform of HackerEarth (https://www.hackerrank.com/contests/knuth-cup-2k16/leaderboard/1).

KNUTH Cup 2016 (Final Round): After the qualification round of KNUTH Cup 2016, total 70 shortlisted teams participated in the Final Round of KNUTH Cup 2016. Out of 70, count of teams from JIIT was 64 whereas total 6 external teams (Non-JIIT Teams) participated in the final round. The contest was 3 Hrs. long and conducted onsite/offline mode at the onsite judge platform of PC^2.

(b) Execute 16.1: It was a 3 Hrs. long ACM ICPC styled programming contest where participants in group of maximum 3 students attempted to solve the given programming based logical problems. The KNUTH Programming Hub conducted the contest, "Execute 16.1" on 7th May 2016 during the annual technical fest of JIIT, *i.e.* "Cyber Srishti 2016". The contest was 3 Hrs. long and conducted onsite/offline mode (for JIIT students) and online mode (Non-JIIT/External students) at the online judge platform of CodeChef (https://www.codechef.com/EXCT1601). In total, 215 teams across the globe participated in Execute 16.1. Out of 215, count of teams from JIIT was 213 whereas total 2 external teams (Non-JIIT Teams) participated in Execute 16.1.

(c) Hackathon (Open Source): It was a 7 Hr. long team event where participants were required to develop a working solution like Android app, Web app, *etc.* on spot using various technologies for the given problem domain with the pervasive theme as "IT for Sustainability". OSDC had organised the Hackathon on 7th May 2016 during the two days annual technical festival of JIIT, *i.e.* "Cyber Srishti 2016". Total 41 teams (maximum 4 students per team) participated in the event. Anup Kalbalia (Tech Lead at CodeChef) and many JIIT faculty members motivated the participants to perform well. JIIT alumni, Mayank Bhola (Senior Software Engineer at PressPlay TV), Praveen Singh (Lead Android Developer at Instaoffice.in), and Ankur Anand (Instaoffice Business Solutions Private Limited) mentored and evaluated the projects made by the participants.

(d) Encode 2K16: Encode is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest with a difference that here individual participation (*i.e.* group size is of one student) participates and attempt to solve the given programming based logical problems. In 2016, this event was

conducted in two rounds, Qualification Round and Final Round. Qualification round was conducted on 29th Sept 2016 whereas shortlisted teams participated in Final Round which was conducted on 1st Oct 2016 at online judge platform of HackerRank.

Encode 2K16 (Qualification Round): Total, 426 teams across the globe participated in the qualification round of Encode 2K16. Out of 426, total 390 teams from JIIT whereas total 36 external teams (Non-JIIT Teams) participated in the qualification round of Encode 2K16. The contest was 3 Hrs. long and conducted online at the online judge platform of HackerRank (https://www.hackerrank.com/contests/encode-16-1-prelims/leaderboard/1).

Encode 2K16 (Final Round): After the qualification round of Encode 2K16, total 56 shortlisted teams participated in the Final Round of Encode 2K16. Out of 56, count of teams from JIIT was 51 whereas total 5 external teams (Non-JIIT Teams) participated in the final round. The contest was 3 Hrs. long and conducted onsite/offline mode at the online judge platform of HackerRank (https://www.hackerrank.com/contests/encode-16-1-finals/leaderboard/1).

(e) Execute 16.2: Execute is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest where participants in group of maximum 3 students attempt to solve the given programming based logical problems. In 2016, this event (Execute 16.2) was conducted in one round (Onsite/Final Round) on 19th Nov 2016 during the Tech Week 2016. In total, 147 Teams across the globe (for JIIT students it was onsite whereas for Non-JIIT/External students, it was online) participated in Execute 16.2. Out of 147, count of teams from JIIT was 136 whereas total 11 external teams (Non-JIIT Teams) participated in Execute 16.2. The contest was 3 Hrs. long and conducted at the online judge platform of HackerRank (https://www.hackerrank.com/contests/execute-16-2/leaderboard/1).

Execute 16.2, owing to your massive support and enthusiasm, was a huge success. With more than 170 teams, 500 participating members and 1200+ submissions, the event couldn't have been better. 🙂
Congratulations to the winners for their exceptional performance.
1) sameer_execute - Sameer Gulati (JIIT-62)
2) holdthedoor - Dhruv Srivastava (JIIT-62)
3) vipsharmavip - Vipul Sharma (ABES)

Some special mentions were :
4th position overall -
triplesss - Shobhit Kumar Sharma, Sameeksha Jain, Shaswat Shirvastva (ABES)
5th position overall - m5abyd - Vishal Sharma (JIIT-128)

1st position in 3rd year:
koshish123 - Sujnesh Mishra, Priyanshu Saxena (JIIT-62)

1st position in 2nd year:
disha3896 - Himanshu Kandpal, Utkarsh Gupta (JIIT- 62)

Top positions in 1st year:
1) _SGBH_ - Areeb Khan , Pj Arvind, Prateek Kumar (JIIT-128)
2) insane_Hackers - Nayan Garg , Sanchi Prakash . Adish Garg (JIIT-62)
3) sgbh - Ujjwal Sharma , Dhruv Gupta, Harry Mecwan. (JIIT-62)
4) havoc162 - Sashakt Pathak , Prakhar Vaish (JIIT-62)
5) Bludart - Dhanajay , Abhishek Agarwal , Ruchir Gupta. (JIIT-62)
6) bitsplease99 - Jayraj Jadeja , Saurabh Newatiya , Anubhav Goyal (JIIT-128)

Congratulations to everyone mentioned above.
To all the others who couldn't make to the list - The journey has just begun. It's not the moment to get demotivated and stop coding, it's the time to start. Every master was once a beginner. 🙂

*If I have missed out anything or anyone let me know. 🙂

Congratulations to all the programmers who coded their heart out in the Onsite Final Round of Encode-16.1 🙂
It was great to see such an amazing response from all the years.
Where everyone was amazing some were able to write there names on the top of the Leaderboard.
The Overall Winners are :-
1. Chetan Kanjani (4th Year)
2. Sumit Bansal   (4th Year)
3. Rishabh Jain   (3rd Year)

Winner from 2nd Year - Abhishek Tiwari
Winner from 1st Year - Ujjwal Sharma

(5) Brief description of the Major Events/Contests Conducted in 2017

(a) KNUTH Cup 2017: Knuth Cup is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest where participants in group of maximum 3 students attempt to solve the given programming based logical problems. This event is conducted during annual techno-cultural fest of JIIT, *i.e.* "Impressions". In 2017, this event was conducted in two rounds, Qualification Round and Final Round. Qualification round was conducted on 22nd Feb 2017 whereas shortlisted teams participated in Final Round which was conducted on 25th Feb 2017.

KNUTH Cup 2017 (Qualification Round): In total, 205 teams across the globe participated in the qualification round of KNUTH Cup 2017. Out of 205, count of teams from JIIT was 186 whereas total 19 external teams (Non-JIIT Teams) participated in the qualification round. The contest was 3 Hrs. long and conducted online at the online judge platform of HackerEarth (https://www.hackerearth.com/challenge/college/knuth-cup-2k17-qualifiers/leaderboard/).

KNUTH Cup 2017 (Final Round): After the qualification round of KNUTH Cup 2017, total 70 shortlisted teams participated in the Final Round of KNUTH Cup 2017. Out of 70, count of teams from JIIT was 62 whereas total 8 external teams (Non-JIIT Teams) participated in the final round. The contest was 3 Hrs. long and conducted onsite/offline mode at the online judge platform of HackerEarth.

(b) Execute 17.1: It was a 3 Hrs. long ACM ICPC styled programming contest where participants in group of maximum 3 students attempted to solve the given programming based logical problems. The KNUTH Programming Hub conducted the contest, "Execute 17.1" on 22nd April 2017 during the annual technical fest of JIIT, *i.e.* "Cyber Srishti 2017". The contest was 3 Hrs. long and conducted onsite/offline mode (for JIIT students) and online mode (Non-JIIT/External students) at the online judge platform of HackerEarth (https://www.hackerearth.com/challenge/college/execute-171/leaderboard/). In total, 374 teams across the globe participated in Execute 17.1. Out of 374, count of teams from JIIT was 342 whereas total 32 external teams (Non-JIIT Teams) participated in Execute 17.1.

(c) Hackathon (Open Source): It was a 7 Hr. long team event where participants were required to develop a working solution like Android app, Web app, *etc.* on spot using various technologies for the given problem domain with the pervasive theme as "IT for Sustainability". OSDC had organised the Hackathon on 22nd April 2017 during the two days annual technical festival of JIIT, *i.e.* "Cyber Srishti 2017". Total 27 teams (maximum 5 students per team) participated in the event. JIIT alumni, Ankur Saxena (Grofers), Mayank Bhola (Juggernaut Books), and Arun Kumar Sori (Wingify) mentored and evaluated the projects made by the participants.

(d) Encode 2K17: Encode is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest with a difference that here individual participation (*i.e.* group size is of one student) participates and attempt to solve the given programming based logical problems. In 2017, this event was conducted in two rounds, Qualification Round and Final Round. Qualification round was

conducted on 4th Oct 2017 whereas shortlisted teams participated in Final Round which was conducted on 7th Oct 2017.

Encode 2K17 (Qualification Round): Total, 265 teams across the globe participated in the qualification round of Encode 2K17. Out of 265, total 241 teams from JIIT whereas total 24 external teams (Non-JIIT Teams) participated in the qualification round of Encode 2K17. The contest was 3 Hrs. long and conducted online at the online judge platform of HackerRank (https://www.hackerrank.com/contests/lets-code-qualifier-2k17/leaderboard/1).

Encode 2K17 (Final Round): After the qualification round of Encode 2K17, total 70 shortlisted teams participated in the Final Round of Encode 2K17. Out of 70, count of teams from JIIT was 60 whereas total 10 external teams (Non-JIIT Teams) participated in the final round. The contest was 3 Hrs. long and conducted in onsite/offline mode.

(e) Execute 17.2: Execute is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest where participants in group of maximum 3 students attempt to solve the given programming based logical problems. In 2017, this event (Execute 17.2) was conducted in two rounds, Qualification Round and Final Round. Qualification round was conducted on 7th Nov 2017 whereas shortlisted teams participated in Final Round which was conducted on 11th Nov 2017. Besides regular funding of JIIT Youth Club, the event was sponsored (sponsorship of Rs. 35000/-) by TechGig (a subsidiary of Times of India group).

Execute 17.2 (Qualification Round): In total, 392 teams across the globe participated in the qualification round of Execute 17.2 Out of 392, count of teams from JIIT was 337 whereas total 55 external teams (Non-JIIT Teams) participated in the qualification round. The contest was 3 Hrs. long and conducted online at the online judge platform of TechGig (https://www.techgig.com/challenge/3sfxctoi3qm9o93810).

Execute 17.2 (Final Round): After the qualification round of Execute 17.2, total 70 shortlisted teams participated in the Final Round of Execute 17.2 Out of 70, count of teams from JIIT was 62 whereas total 8 external teams (Non-JIIT Teams) participated in the final round. The contest was 3 Hrs. long and conducted onsite/offline mode at the online judge platform of TechGig.

(5) Brief description of the Major Events/Contests Conducted in 2019

(a) KNUTH Cup 2019: Knuth Cup is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest where participants in group of maximum 3 students attempt to solve the given programming based logical problems. This event is conducted during annual techno-cultural fest of JIIT, *i.e.* "Impressions". In 2019, this event was conducted in two rounds, Qualification Round and Final Round. Qualification round was conducted on 18th Feb 2019 whereas shortlisted teams participated in Final Round which was conducted on 23rd Feb 2019.

KNUTH Cup 2019 (Qualification Round): In total, 80 teams across the globe participated in the qualification round of KNUTH Cup 2019. Out of 80, count of teams from JIIT was 73 whereas total 7 external teams (Non-JIIT/External Teams) participated in the qualification round of KNUTH Cup 2K19. The contest was 3 Hrs. long and conducted online at the online judge platform of HackerEarth (https://hackerearth.com/challenges/college/knuth_cup_qualifier_2k19/).

KNUTH Cup 2019 (Final Round): After the qualification round of KNUTH Cup 2019, total 53 shortlisted teams participated in the Final Round of KNUTH Cup 2019. Out of 53, count of teams from JIIT was 48 whereas total 5 external teams (Non-JIIT/External Teams) participated in the final round of KNUTH Cup 2K19. The contest was 3 Hrs. long and conducted onsite/offline mode at the online judge platform of HackerRank (https://www.hackerrank.com/contests/knuth-cup-finals/leaderboard).

(b) Execute 19.1: It was a 3 Hrs. long ACM ICPC styled programming contest where participants in group of maximum 3 students attempted to solve the given programming based logical problems. The KNUTH Programming Hub conducted the contest, "Execute 19.1" on 20th April 2019 during the annual technical fest of JIIT, *i.e.* "Cyber Srishti 2019". The contest was 3 Hrs. long and conducted onsite/offline mode (for JIIT students) and online mode (Non-JIIT students) at the online judge platform of HackerRank (https://www.hackerrank.com/contests/execute--19/leaderboard/1). In total, 227 teams across the globe participated in Execute 19.1. Out of 227, count of teams from JIIT was 211 whereas total 16 external teams (Non-JIIT Teams) participated in Execute 19.1.

(c) Capture The Flag: It was a 5 Hrs. (initially planned for 5 Hrs. but based on request of participants 1 more Hr. was given) long Jeopardy type (beginner friendly) hacking competition conducted on second day (21st April 2019) of the tech-fest, "Cyber Srishti 2019". Here participants were given a set of tasks (snippet of code) and set of questions that reveal clues (*i.e.* contestants get to know the right direction to move forward) and ultimately guided them to solve the complex tasks in specific order. Each team received points for each solved task and solving more difficult tasks helped the participating teams to ensure more points. Total 34 teams (maximum 4 students per team) participated in the event. Out of 34, total 31 teams were formed by JIIT students, whereas 3 non-JIIT teams participated in the Capture The Flag event.

(d) Encode 2K19: Encode is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest with a difference

that here individual participation (i.e. group size is of one student) participates and attempt to solve the given programming based logical problems. In 2019, this event was conducted in two rounds, Qualification Round and Final Round. Qualification round was conducted on 4th Sept 2019 whereas shortlisted teams participated in Final Round which was conducted on 7th Sept 2019.

Encode 2K19 (Qualification Round): In total, 468 teams across the globe participated in the qualification round of Encode 2K19. Out of 468, count of teams from JIIT was 363 whereas total 105 external teams (Non-JIIT Teams) participated in the qualification round. The contest was 3 Hrs. long and conducted online at the online judge platform of HackerRank (https://www.hackerrank.com/contests/encode-2k19-closed/challenges).

Encode 2K19 (Final Round): After the qualification round of Encode 2K19, total 100 shortlisted teams participated in the Final Round of Encode 2K19. Out of 100, count of teams from JIIT was 93 whereas total 7 external teams (Non-JIIT Teams) participated in the final round. The contest was 3 Hrs. long and conducted onsite/offline mode at the online judge platform of HackerRank (https://www.hackerrank.com/contests/encode-onsite/leaderboard).

(e) Execute 19.2: Execute is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest where participants in group of maximum 3 students attempt to solve the given programming based logical problems. In 2019, this event (Execute 19.2) was conducted in one round on 16th Nov 2019. In total, 82 teams across the globe participated in Execute 19.2. Out of 82, count of teams from JIIT was 78 whereas total 4 external teams (Non-JIIT Teams) participated. The contest was 3 Hrs. long and conducted at the online judge platform of HackerRank (https://www.hackerrank.com/contests/execute19/leaderboard).

(f) OSDHack'19: Under the Institution Innovation Council, Open Source Developers Community conducted an 8 Hrs. long Hackathon (OSDHack'19) on 23rd Nov 2019. The Hackathon was conducted on different goals of sustainable development. JIIT students made the teams of maximum 4 students and participated in the OSDHack'19. In total 18 teams participated in the OSDHack'19 where each team comprised of maximum 4 students of JIIT. OSDHack'19 ended on a happy note with every participant having explored and hacked on some of the real world sustainable development goals the world needs to tackle. Each team gave exceptional performance and indeed it was a hard decision for the judges (Mr. Ashutosh Kesharwani (ashutosh@farziengineer.com) and Priyanshu Ranjan (priyanshu@squadvoice.co), both are the alumnus of JIIT and Dr. Manish K Thakur, Associate Prof., Dept. of CSE&IT, JIIT, Noida) to finalize the winners. Cash prizes were given to the top 3 teams of OSDHack'19. The topper team addressed the problem to "Prevent the Outbreak of the Diseases" whereas other two winning teams addressed the problems on "A Solution to Waste Management" and "Laundry Management System".

(4) Brief description of the Major Events/Contests Conducted in 2020

(a) KNUTH Cup 2020: Knuth Cup is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest where participants in group of maximum 3 students attempt to solve the given programming based logical problems. This event is conducted during annual techno-cultural fest of JIIT, *i.e.* "Impressions". In 2020, this event was conducted on 29th Feb 2020. In total, 44 teams participated in KNUTH Cup 2020. Out of 44, count of teams from JIIT was 42 whereas total 2 external teams (Non-JIIT/External Teams) participated in KNUTH Cup 2K20. The contest was 3 Hrs. long and conducted offline/onsite at the online judge platform of TalentDecrypt. Due to technical issues, the contest link at TalentDecrypt site is unavailable, therefore the coordination team of KNUTH Programming Hub replayed/rehosted the coding/programming problems at the online judge platform of HackerRank (https://www.hackerrank.com/contests/knuth-cup-2020/challenges). As it is replayed/re-hosted contest, the leader-board at the mentioned link is unavailable.

(b) Flash Coding: It was a 1.5 Hrs. long individual programming contest organized by KNUTH Programming Hub during the annual techno-cultural fest of JIIT, "Impression 2020". Students individually participated in this coding contest which was organised in two rounds, the teams qualified in prelims round were allowed to participate in the Final round. Both rounds were organised on 1st March 2020. In total, 41 teams from JIIT Noida participated in Round 1, out of which, 21 teams qualified for Final round. Both rounds, Prelims Round (https://www.hackerrank.com/contests/flash-contest-round-1/leaderboard/5) and Final Round (https://www.hackerrank.com/contests/flash-contest-finals/leaderboard/1) were hosted at the online judge platform of HackerRank.

(c) Code Relay: It was a 1.5 Hrs. long team based (2 members in each team) programming contest organized by KNUTH Programming Hub on second day of the annual techno-cultural fest of JIIT, "Impression 2020", i.e. 1st March 2020. In this event each team had been given two coding/programming problems, which were supposed to be attempted by first member of the team in Round 1. In next half, i.e. Round 2, second member of the team was required to get it completely coded from the point where first member left it in Round 1. During this transition (Round 1 to Round 2), both members of a team were not allowed to interact with each other. Also, during this transition, team were allowed for the walkover, i.e. teams might not opt for Round 2. Each team received points for the completely solved problems in lesser time. Total 17 teams from JIIT Noida participated in the first round of the event whereas, total 13 teams participated in the second round. Both rounds, Round 1 (https://www.hackerrank.com/contests/code-relay20/leaderboard/1) and Round 2 (https://www.hackerrank.com/contests/code-relay-problem-2/leaderboard/1) were hosted at the online judge platform of HackerRank.

(d) Internal Hackathon for SIH 2020: Conduction of internal Hackathon was an essential requirement for the institutions willing to send the student's teams to participate in the Smart India Hackathon (SIH) 2020. The 8 Hrs. long internal Hackathon to decide the participants of SIH2020 from both campuses of JIIT had been organised on 25 Jan 2020 by the OSDC. It was a team-based event where team size was six, with a team leader and at least one girl member. The Hackathon included the project under both hardware and software categories. Problem statements addressed by the teams of internal Hackathon were same as mentioned by the organisers of SIH2020. Participants of this internal Hackathon were the JIIT students, who were shortlisted after the qualification round conducted in second week of Jan 2020.

Knuth Programming hub would be conducting a meet up on Thursday at 5:00 PM onwards. All questions of code forces round #616 (Div 2) and code forces round #617 (Div 3) will be discussed. All students are expected to have attempted the contest before coming(at least virtual participation).

These meetups would also act as selection criteria for a special training group for second years. Details regarding which would be shared in meetup only.

UPD: venue for the meetup is G4.

kph_jiit Last but definitely not the least!!

Welcome freshers , Knuth Programming Hub is organising it's annual orientation for first year students.
KPH is the programming hub of JIIT responsible for teaching and motivating students to venture into the field of Competitive Programming.
Competitive Programming is a sport of logic , maths and a bit of creativity.

Come join us on October 6th, Wednesday at 6:30 pm to know more about CP and why it is worth the hype.

28.	**Complete details of the event:** Encode is one of the flagship programming contests/events of KNUTH Programming Hub. It is ACM ICPC styled programming contest with a difference that here individual participation (i.e. group size is of one student) participates and attempt to solve the given programming based logical problems. In 2022, this event was conducted in two rounds, Qualification Round and Final Round. Qualification round was conducted on 25th March 2022 whereas shortlisted teams participated in Final Round which was conducted on 28th March 2022. **Encode 2K22 (Qualification Round):** In total, 136 teams across the globe participated in the qualification round of Encode 2K22. Out of 136, count of teams from JIIT was 126 whereas total 8 external teams (Non-JIIT Teams) participated in the qualification round. The contest was 3 Hrs. long and conducted online at the online judge platform of HackerRank (https://www.hackerrank.com/contests/encode-qualifier-2022/leaderboard/1). External participations had been observed from following institutes: Netaji Subhas University of Technology, Dwarka, Ajay Kumar Garg Engineering College, R.D. Engineering College, University of Visvesvaraya College of Engineering, Graphic Era University, and Dr Ambedkar Institute of Technology. **Encode 2K22 (Final Round):** After the qualification round of Encode 2K22, total 64 shortlisted teams participated in the Final Round of Encode 2K22. Out of 64, count of teams from JIIT was 56 whereas total 8 external teams (Non-JIIT Teams) participated in the final round. The contest was 3 Hrs. long and conducted onsite/offline mode at the online judge platform of HackerRank (https://www.hackerrank.com/contests/encode-finals-2022/leaderboard/1).

Meet the winners of TechGig Code Gladiators 2017: A historic event of global proportions

TIMESOFINDIA.COM / Jun 23, 2017, 12:32 IST

NEW DELHI: 20-year-old Sameer Gulati's victory, at the World Record Breaking Code Gladiators 2017, provided ample proof that a Tech Revolution is taking place where youth has overtaken experience, as reiterated in TechGig's earlier findings, that while working professionals constituted 72% of the total participants, almost 70% of the top scorers in the qualifying round had less than 2 years of experience.

"We are privileged to be witnessing the dawn of a new era of technology, far from seeing a downturn, we are in the midst of a new awakening in the Indian IT Industry. The old guard is giving way to a new wave of young, bright and passionate technologists, and Sameer stands as a shining example of how far Indians are going to lead this new world order. I congratulate Sameer and all the other programmers who set a new world record at this event," said Ramathreya Krishnamurthi, Business Head of TechGig and TimesJobs.

Here is the list of winners:

Winner: Sameer Gulati, a student of Jaypee Institute of Information Technology won Rs 2.5 Lakhs Cash, Trophy and Certificate Plaque

1st runner-up: Rishi Vikram, a student of The LNM Institute of Information Technology, Jaipur won Rs 2 Lakhs Cash, Trophy and Certificate Plaque

2nd runner-up: Dilip Kasana from Mobileum India won Rs. 1.5 Lakh Cash, Trophy and Certificate Plaque. Dilip also won the 'Beat the Leader' challenge and was awarded a further Rs 1.5 Lakh Cash, Trophy and Certificate Plaque.

"It's absolutely surreal winning the World's Biggest Coding Contest. With thousands of experienced coders participating I didn't expect to win this mega competition. I guess I am lucky, but I also feel at the end of the day it is my hard work that has finally paid off. The future of coding is very bright, and coding is definitely the skill to reckon with in the future," said Sameer Gulati

The TechGig Code Diva Award at Code Gladiators 2017 went to Deepika Rodda from Scientific Games India who won Rs 50,000 Cash, Trophy and Certificate Plaque as the best female coder.

The company whose team scored the highest was the global consulting giant Deloitte, which won the 'Coding Power House' award. Vishal Sharma, Managing Director, Technology Lead, Deloitte Consulting, said, "I see TechGig Code Gladiators as a great opportunity for our employees to explore and scale their coding skills. It also positions us in a unique way to attract similar talent that can add value to our existing teams. Participating in a world record event like this helps our coders identify areas of improvement and embrace the latest in frameworks and technology advancements. Congratulations to TechGig and all the winners."

TechGig Code Gladiators 2017 set the world record for the largest computer programming competition as declared by Guinness World Records.

For the complete list of the winners who won prizes worth over Rs 3 Crores, more pictures and details from this World Record event please visit – https://www.techgig.com/codegladiators/winner

TechGig is a platform exclusively for IT professionals to synergize, share, exchange ideas, facts and information as well as showcase their work and express their views on the vast repertoire that the IT industry encompasses.

With over 2 lakh participants who registered for Code Gladiators 2017, TechGig has once again consolidated its position as the presenter of India's Biggest Coding Arena. 'TechGig Code Gladiators' - the undisputed leader in coding contests, had already won the Limca Book National Record for the same in 2015 and 2016, and now holds the 2017 Guinness World Records for the largest computer programming competition in the world.

To Whom It May Concern:

Google is pleased to let you know that Keshav Bathla has been accepted to participate in the Google Summer of Code 2019 program, which is administered from our Corporate Headquarters at 1600 Amphitheatre Parkway, Mountain View, CA 94043.

Keshav will work as a Student Developer beginning May 27, 2019 and ending on August 19, 2019, developing open source software for Oppia Foundation. Keshav is expected to spend 30+ hours a week working on their project. Keshav will work from home on their project and will not be required to visit either Google or Oppia Foundation's offices.

More information on Keshav's project can be found at:
https://summerofcode.withgoogle.com/projects/5101169393795072

Keshav will not be directly employed by Google during participation in Google Summer of Code. The program is administered by Google and Google will act as the host organization for the duration of their participation.

This letter serves as official proof and verification of Keshav's acceptance. Alternate proof cannot be provided. However, Keshav may, subject to their mentor's approval, make slight adjustments to the start and end dates of the program, and their mentor can provide verification to supplement this letter.

You can learn more about the program on our website at g.co/gsoc. Should you require any further information, please do not hesitate to contact our team via email at gsoc-support@google.com.

History would remember TechGig Code Gladiators 2019 as that crucial coding event where an ex-champion and a defending champion came face to face to claim the 'world's best coder' title. The winner of 2017 Sameer Gulati and 2018 winner Vineet Paliwal, along with over 2.6 lakh coders fought it out tooth and nail for 87 days to claim the 2019 title, which was clinched by Sameer Gulati, ultimately.

TechGig Code Gladiators 2019 culminated with the crowning of Sameer Gulati as the 'world's best coder' at a grand finale ceremony held at Reliance Corporate Park, Navi Mumbai for the second year in a row.

After a gruelling, non-stop 6-hour coding session, this year's top coders and the winners of Code Gladiators 2019 edition were declared among the stalwarts of the Indian IT and Technology industry. Out of the record-breaking 2,62,906 participants - just 15,382 participants moved to the semi-finals. The competition got more demanding and only the top 0.2% participants made it to the grand finale round - making it one of the toughest coding challenges in the world.

The registration numbers in TechGig Code Gladiators 2019, now in its sixth year, has increased 21% Y-o-Y. This edition got over 2.6 lakh registrations and is by far the biggest in terms of registration numbers since its inception in 2014.

TechGig Code Gladiators - the world's biggest coding arena – also hosted theme hackathon rounds on 10 new-age technologies: Artificial Intelligence, Blockchain, Chatbots, Robotic Process Automation, Fintech, Software Testing, Location Services, Amazon Alexa Skills, Internet of Things, and New Commerce.

In the main coding round, Sameer Gulati beat all the odds and was declared the champion of TechGig Code Gladiators 2019 edition. A radiant Sameer Gulati took home a cheque of Rs 3,00,000, a trophy and a certificate.

Congratulating the winners of Code Gladiators, Sanjay Goyal, Business Head, TimesJobs and TechGig said, "Finding quality talent in emerging technologies is one of the most pressing problems faced by technology companies today. TechGig Code Gladiators platform provides a fabulous opportunity for the brightest coders to showcase their talent in front of India's leading technology companies. I am happy that TechGig Code Gladiators has become the most credible platform in the IT industry today. My heartiest congratulations to all the winners and all participants who made it to the finale round after fighting this intense 87-day long coding competition."

Speaking at the Grand Finale, Anish Shah, President, Reliance Industries Ltd said, "Our journey with TechGig Code Gladiators has been an exciting one. The energy and enthusiasm in the grand finale arena was fascinating and I met so many bright coding minds from across the nation. I would like to congratulate Sameer for winning TechGig Code Gladiators 2019 edition. TechGig Code Gladiators has been an important partnership for us from a talent acquisition perspective as it positions brand Jio in a unique way to the technology community."

Kiran Thomas, President, Reliance Industries said, "The entire journey of Code Gladiators 2019 has been quite eventful and exciting. This year more than 2.6 lakh coders registered for the event and only 545 made to the finale arena. Many congratulations. Contests such as Code Gladiators has strengthened India's footprint on the global coding map. This event is not just about coders but about every technology enthusiast who wants to leverage technology for solving business problems."

The winners' list is:

Champion - Sameer Gulati
1st Runner-up - Madhav Sainanee
2nd Runner-up - Pranjal Jain
3rd Runner-up - Jatin Yadav
4th Runner-up - Vineet Paliwal

Google Summer of Code

To Whom it may concern:

Google is pleased to let you know that Aaryan Porwal has been accepted to participate in the Google Summer of Code 2021 program, which is administered from our Corporate Headquarters at 1600 Amphitheatre Parkway, Mountain View, CA 94043.

Aaryan will work as a Student Developer beginning June 7, 2021 and ending on August 16, 2021, developing open source software for Ceph. Aaryan is expected to spend an average of 17+ hours a week working on their project over 10 weeks. Aaryan will work from home on their project and will not be required to visit either Google or Ceph's offices.

More information on Aaryan's project can be found at:
https://summerofcode.withgoogle.com/projects/4772735261081600

The Google Summer of Code program is administered by Google. Aaryan will not be directly employed by Google during participation in Google Summer of Code 2021.

This letter serves as official proof and verification of Aaryan Porwal's acceptance into Google Summer of Code 2021. Alternate proof cannot be provided. However, Aaryan may, subject to their mentor's approval, make slight adjustments to the start and end dates of the program, and their mentor can provide verification to supplement this letter.

You can learn more about the program on our website at g.co/gsoc. Should you require any further information, please do not hesitate to contact our team via email at gsoc-support@google.com.
